Steve,

I've let DTSC know we shouldn't be listed as a contact on the community work notice. DTSC is now asking whether it's okay to mention EPA's involvement in the notice – see attached. The applicable sentence is:

Due to a high level of community interest and concern, DTSC has collaborated with the United States Environmental Protection Agency (US EPA) to confirm that the site was cleaned up adequately, and that the site continues to remain safe for neighbors and future workers and homeowners.

That sounds reasonable to me...Let me know what you think.

Thanks,
Sara

Sara... this is being reviewed by our external affairs. Will you check and let me know if EPA is ok with your name being listed as a contact and the wording re: EPA involvement? We are aiming to finalize this notice today and go out for translation tomorrow. We will do the mail out after our call on Monday. We are planning to mark locations on Wednesday or Thursday, and also knock on some doors.
